Easier work with the

Extraction hook

This device enables you to lever and extract large vertically stored items from a warehouse shelf for onward transport

Advantages:
• Panels can be removed from storage easily

Construction:
• Sturdy galvanized steel extraction hook

Art.-Nr.: 0110.90.000.101

Product info:
A good supplement to our warehouse assistance carrier (see our catalogue: Transport & assembly appliances: page 16)

Technical specifications:
• Dimensions (L x W x H): 570 x 120 x 65 mm
• Empty weight: 0,5 kg
• Hook can be used to grip pallets up to a width of 45 mm

Application:

Step 1
Use the extraction hook to bring the panel forward by approx. 1 m

Step 2
Push the warehouse assistance carrier under the pallet and guide it out using the pole handle..
